# FAQs

## Question 1

What should I do if a **QR** code appears when I turn on the device?

Please provide us with the **IMEI** code or **the code on the front of the packaging box**.

## Question 2

What if multiple intercoms cannot communicate with each other?

**Check if all intercoms are in the same group. If not, select the same group for all.**

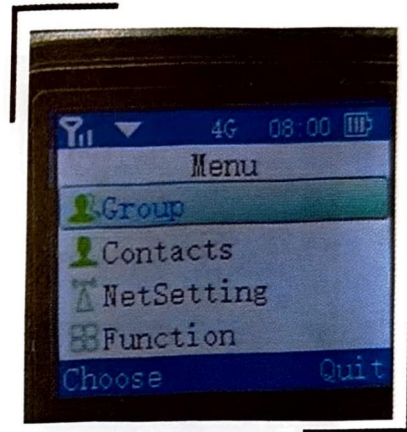

# FAQs

## Question 3

How do I select a group on the intercom?

Navigate to the "**Group**" option in the menu, then select your desired group.

## Question 4

Can I make a private call to a specific intercom?

Yes. Go to the "**Contacts**" option in the menu, then select the specific intercom you wish to call privately.

# FAQs

## Question 5

What if I cannot transmit audio when pressing the **PTT** button?

Ensure the **MIC** (microphone) port on the front of the intercom is not blocked. Blockage of the MIC port will prevent audio transmission.

# Feature Description
